1st Step : The Castle's entrance

Go to the castle's entrance, observe and surround the corresponding form !

Take the wood stairs, and go to the orientation table. Look away and surround what you see :

2nd Step : Déodat de Séverac street

What if we go down to the Déodat de Séverac street ? Find the Déodat's house, and surround the animal corresponding to the colour of the house's flaps !

3rd Step : The church

Continue to go down on Déodat de Séverac street and stop yourself in front of the church. Connect the points and discover the Tolosano-Albigeois bell tower form.

Now that you're in the church, look for the musical instrument which is hooked to the wall. This is an organ. Can you find and surround it ?
